Ten years ago the white residents in Hawall considered bolts and bars and locks on their houses as almost superfluous. Almost nobody took the trouble to lock their doors at night, and burglary was a crime almost unknown in the lolu and maintains in many country districts even today. The Hawalians were never given to thievery or crimes of violence, and a century ago it used to be the boast of the kings that a woman of child was safe to sleep by the roadside

Civilization, however, has brought to the islands the uncivilized traits of hu man character, and now locks and keys are only less numerous than in othe maintains his principles of honesty, but with the influx of races from all part at 8 of the earth it is not strange that the old time feeling of security in person and property is lessening. GOVERNOR'S DAY ASSURES SUCCESS

Salt Lake, April 9.-That "Governnor's day" will be one of the big suc-cesses of the forty-third annual encampment of the Grand Army of the Republic, to be held in this city early n August next, is now assured beyond peradventure of a doubt. The only hing which ever made it questionable was the fact that the day set aside for the entertainment of the governors of the various states on the occasion of the National Irrigation congress, to be held at Spokane during the same week that the encampment is to be held here, was set for the same day-August 11. Through correspondence conducted through the local executive board of the G. A. R. encampment with the board of control of the Irrigation congress, a satisfactory arrangement has been arrived at whereby the con flict in date for Governor's day has been obviated, and the Spokane com mittee has agreed to postpone their day for entertaining the state execu-

In many respects this birthday of the general will be a momentous of casion. It not only represents the fact that the general has exceeded by a decade the Biblical "three score year and ten," but promises to be almost a turning point in the fate of the vast organization over which at present he exercises autocratic control.
